Frontend Developer specializing in React.js and the **MERN** Stack with hands-on experience building scalable, **full-stack** web applications.

SKILLS SUMMARY

- **Languages:** HTML, CSS, JavaScript, TypeScript, Python, PHP
- **Frameworks/Libraries:** React.js, Redux, Node.js, Express.js, Next.js, Tailwind CSS, Bootstrap
- **Tools & Platforms:** MongoDB, SQL, WordPress, Git, GitHub, Postman, Vercel, Render
- **Core Concepts:** Component-Based Architecture, Performance Optimization (Lazy Loading, Code Splitting), Testing & Debugging (Chrome DevTools, Postman), REST API Integration, Authentication & Authorization (JWT, OAuth 2.0), Responsive Design, State Management (Redux, Zustand), CI/CD Pipelines

PROJECTS

Mindora.ai – AI Mental Wellness Platform | [Live](#) | [GitHub](#)

March 2026 – April 2026

Tech Stack: MERN, React.js, Tailwind CSS, Zustand, JWT, OAuth 2.0 (Google & GitHub), Groq AI, Framer Motion, Recharts

- **Engineered a scalable full-stack platform** with OAuth 2.0 + JWT authentication and rate-limited REST APIs, reducing unauthorized access attempts by **~95%** and supporting **1,000+ concurrent user sessions** with consistent sub-200ms response times
- **Integrated an AI-powered chatbot** using real-time conversational APIs, enabling **24/7 user support** and reducing average user query resolution time by **40%** through intelligent, context-aware responses
- **Developed journaling and analytics dashboards** with backend-validated data pipelines, delivering **actionable behavioral insights** to users, improving session engagement metrics by **30%** through personalized UX flows

ShopVerse – E-commerce Platform | [Live](#) | [GitHub](#)

December 2025 – March 2026

Tech Stack: React.js, Redux, Node.js, Express.js, MongoDB, Stripe API, Google OAuth 2.0, Gemini AI, JWT, Tailwind CSS

- **Architected a full-stack e-commerce platform** with JWT-based authentication and role-based access control (Admin/User), reducing unauthorized access attempts and supporting **1,000+ concurrent user sessions** securely
- **Integrated Stripe Payment Gateway** with end-to-end encrypted checkout flow, enabling seamless transactions and reducing payment failure rate to **<1%** across 100+ product SKUs
- **Designed 15+ RESTful APIs** with optimized MongoDB aggregation pipelines and query indexing, improving average API response time by **40%** and reducing server load by **30%**
- **Built an AI-powered chatbot** using contextual NLP responses, cutting average user query resolution time by **60%** and increasing session engagement duration by **35%**

PROFESSIONAL EXPERIENCE

Full Stack Web Development Program (Trainee) - AlmaBetter

July 2025 – April 2026

- Built and deployed **3+ full-stack MERN applications**, delivering end-to-end features including responsive UI, API integration, and authentication systems
- Engineered 12+ modular React components with Storybook documentation, slashing front-end development cycles by 30% across three MERN stack applications and boosting UI consistency.
- Spearheaded the integration of **REST APIs** within 3+ MERN applications, leading to a 25% reduction in API latency and faster data retrieval speeds for end-users.

Office Administrator (Operations & Technical Support) - Manoj Pvt. ITI (Institute)

February 2022 – April 2025

- Managed digital portals handling 200+ records, ensuring accurate processing and streamlined workflows
- Maintained structured datasets and reports, boosting operational efficiency by 20% and resolving 50+ issues monthly
